

Justice Minister Says: Consolidation of Statutes Will Revise Criminal Code

By DARC O'DONNELL

OTTAWA, Nov. 17.—(CP)—The Canadian government has been discussing the consolidation of the Dominion statutes and any revision would include a consolidation of the Criminal Code, Justice Minister St. Laurent said yesterday in the Commons. The statutes had not been solidified since 1927.

"I WOULD HOPE that anything was done about the Criminal Code there would be a very serious effort made to bring about a greater degree of uniformity in the punishment provided for offences that have been dealt with in the code at different times," said Mr. St. Laurent.

"You can almost date the period when the offence was put into the code by the severity of the punishment which might be imposed, but which never is."

"I think it will be desirable to try to have a greater system of punishments proportionate to the seriousness of the offences being dealt with in the various sections, and there will no doubt also be many other improvements made in the language used to express the procedure which is to be followed to apply the provisions of the code."

MR. ST. LAURENT spoke before the Commons gave third reading to a bill which would authorize the appointment of a chairman to a proposed three-man committee to administer penitentiaries. The bill would allow appointment of the penitentiaries "during pleasure" rather than for a 10-year period and would bring them under the Civil Service Superannuation Act.

Also given third reading was a bill authorizing a salary increase for the City of Ottawa for services to federal buildings.

AT THE NIGHT SITTING the house completed study of air force estimates in the war appropriation bill which would be put into effect later this year.

When the house opened, Labor Minister Mitchell said he considered the latest union proposals in the strike at the Ford Motor Company in Windsor, Ont. to be "fair and reasonable" and urged a compromise conference "at the earliest possible moment in order that work might be resumed."

A BRIEF DEBATE arose when the house was asked to give first and second reading to more than 60 bills.

Mr. C. Colwell, CCF leader, said it was a "public scandal" that the parliament was asked to pass bills.

Finance Minister Ialey called for concrete suggestions and the CCF suggested a federal court to deal with cases from Quebec, the only province without a divorce court.

TRADE MINISTER MACKINNON said he did not expect payment of the 1945 wages participation certificate could be made until next June and July after that the 1946 certificates would be paid.

Mr. St. Laurent, replying to John Deekenaker (PC-Lake Centre), said nothing beyond vague suggestion had been made toward bringing penal institutions in the country under one centralized control.

WHEN PROVINCIAL representatives were here for the preliminary Dominion-provincial conference last August, said Mr. St. Laurent, "we agreed that if we could only get together and try to do something to bring about not only better relations but more effective administration of public affairs for the Canadian people, the matter of penal institutions was one which would have to be dealt with."

Penitentiaries did not have much to do with juvenile delinquency but the matter of segregation was one of the most urgent problems to be considered.

Singer Arrives

(Continued from Page 1)

Two leading network programs in the United States she received thousands of "fan" letters from Canada.

Then she sang on Victory Loan programs, and has assisted in the sale of War Savings Stamps at Toronto. She has appeared several times in Toronto and Montreal and a few years ago sang in Vancouver.

This is her first visit here and the farthest north point at which she has appeared.

SHE PROUDLY DISPLAYS a large diamond R.A.F. pin which was presented to her by the Royal Air Force for her assistance to and entertainment of servicemen.

She arrived here over the CNR at 8:30 p.m. Friday, coming direct from Los Angeles where she had completed an engagement with the opera company. It was 24 in the shade when she left California and the transition to sub-zero weather was marked, but was accomplished without contracting a cold.

She was met at the station by Mrs. Ernest Meaden, director of the Celebrity Seven, Bernice McElroy, Edmonton agent, who had met her at Toronto two years ago when she appeared on the Singing Stars of Tomorrow program, and others.

MISS DELLA CHIESA went immediately to the Macdonald hotel. She was recognized by several guests and smilingly and gratefully acknowledged their greetings.

The elevator girl recognized her. Since she was the first to enter, she was the first to be recognized.

After getting her photograph taken and getting settled, Miss della Chiesa, Rhea Shelters, her accompanist, and Miss McElroy went out to do some shopping. They visited a drug store and the clerk recognized the golden-haired cantatrice.

AFTER SERVING HER, he said: "Say, won't my wife be?"

He explained that he had been in vain to get tickets for the concert. His sorrow was mitigated to some extent by the receipt of the famous della Chiesa smile and a sympathetic remark.

In the store two girl customers recognized her, and requested her to sing a song. She graciously acceded and they went away "walking down the aisle."

Returning to the hotel the party was joined by Mrs. Meaden and Miss Shelters, who were also special service when they in attendance at the concert. They were welcomed by the hotel staff.

MISS DELLA CHIESA, owing to a brilliant agency, has been unable to take advantage of Hollywood offers which would enable her to become as familiar to millions of listeners as she is to her own.

She will leave immediately after her concert for Winnipeg where she will appear on the local radio program and is heading to New York to appear on the radio.

HER ACCOMPANIST, Rhea Shelters, is the daughter of a Montrealer. Her husband, a Canadian, has been married to her for some time, under Canadian Army hospitalization arrangements for special treatment.

IT IS THE HOPE and expectation of all concerned that all of the men hospitalized will participate in the benefits and enjoyment of the Not Forgotten Fund. The extent to which this can be done depends on the contributions of the happy who will be the Christmas for the veterans.

Many have been in hospital ever since the bugles rang across the Western Front in 1918. Others have been in and out as wounds refused to heal and further treatment became necessary. Still others are men who suffered in the more recent conflicts.

SCATTERED THROUGHOUT Alberta are many veterans who look back on Christmas spent in the Military Ward of the University Hospital. They will testify to the comfort and satisfaction brought by the remembrance at Christmas.

There has been received expression, thanks and appreciation for the thoughtfulness of Bulletin readers.

Talent of Edmonton Photographer Rewarded With High Recognition

By E. R. HORTON

ARTISTE talent to a high degree is required by discriminating selecting committees and judges who say what photos may be hung in the annual exhibition of the Royal Photographic Society in London, England. To photographers, the privilege of having a portrait or picture chosen by the society is equivalent to that accorded the artists in other spheres, who submit their work to the Royal Society of Arts.

TO BE FURTHER honored by having a picture chosen by the committee to appear in the exhibition's catalogue, as representative of all the works on display, is accorded to few photographers.

EDMONTON BULLETIN Photographer Alfred Blyth's portrait study, "The Spinner," was adjudged of such merit that not only was it hung in this year's exhibition, but was also chosen to grace the society's catalogue and is the first picture in the publication.

A list of the photographic artists whose work was also hung in the exhibition of the society, shows that the competition is nearly world-wide with exhibits from all over the United Kingdom and the United States, South Africa, India, Kenya Colony and Norway are other countries.

Surprise Breakthrough

China Nationalist Forces Pour Into East Manchuria

Exclusive to The Edmonton Bulletin

CHUNGKING, Nov. 17.—(HUP)—Chinese government troops poured through the Great Wall into Eastern Manchuria today and advanced almost unopposed along the coastal railway toward Mukden.

COMMUNIST FORCES defending Shanhaiwan, eastern anchor of the Great Wall, fled before the advance of the Chinese government army after a Nationalist column slipped through an unguarded gap yesterday. Chu-Min, eight miles to the north.

Chu-Min, Nationalist commander in North China, announced the surprise breakthrough from his nearby headquarters in the coastal marine-base port of Chungking.

To ordered an immediate advance on the coastal railroad to Mukden, 253 miles to the north. Chu-Min appeared little likelihood, however, that the retreating Communists would stop the rail line.

TU SAID HIS TROOPS were making an attempt to break through the Great Wall, but they were destroyed by the Communists around Shanhaiwan in view of the continuing peace negotiations under way in Chungking.

TODAY'S MESSAGE

Gifts for Europe

A YOUNG WOMAN who has been soliciting used clothing from her friends to send to war-sufferers in Europe remarked that her collection contained a "perfectly beautiful evening gown." With a sad shake of her head, she added: "I wonder what an evening gown is going to be to some woman over there who can't even buy a loaf of bread much less go to a party."

One may disparage the gift, but not the kindness that must have inspired it. Very likely to part with it meant some sacrifice; hence the gesture was one of true Christian generosity. And for all that communisms may seem one cannot help but wonder what it might mean to some lonely young girl in Amsterdam or Brussels, who has experienced not only physical hunger but the hunger for laughter and beauty, to receive something exquisite and charming that she could put on, and for a moment or two forget what it has meant to grow up in the shadow of terror and death.

Of course, the dress may never be sent at all, or it may be remodelled for more utilitarian use, especially since a hard, cold winter is coming on. But other gifts are promised—food and medicine as well as warm clothing and shoes—which will help to restore not only health but hope and confidence and, who knows, their sparkle and gaiety to the crushed peoples of Europe.

Churches in this country have been asked to organize relief efforts to save millions from slowly death from disease and starvation. War-ravaged populations must be fed and nursed back to health before a new spiritual revival can be successfully undertaken.

Europe may not need evening gown, but she is desperately dependent on the supplies that will help her hearts to remember the plight of her sufferers, the tragedy of uncounted millions of children who scarcely dare to hope for a future when laughter and parties may cease to be among the impossible things of life.

As Nothing Previously Nuernberg War Crime Trials To Bare Enormity of Nazi Bestiality Against Mankind

Copyright, 1945, N.Y. Tribune, Inc. and The Edmonton Bulletin
BERLIN, Nov. 17.—(AP)—American and Canadian memories are so short and we are so quick to forgive and forget and we live so far from prostrate Europe still digging itself out of its ruins—physical, moral and spiritual ruins—that it seems whether or not the much interest in the trial of the German war criminals which is scheduled to begin at Nuernberg next Tuesday.

ONE CAN ONLY HOPE it will be considerable for it was our lack of interest and knowledge of Europe which encouraged Germany to go to war twice in our lifetime, involving us in bloody conflicts both times. Haven't Americans and Canadians had enough?

If we have we can learn much by following the Nuernberg trial which we can see on the radio and in the press and radio will tell us the real nature of the crimes that we come so close to beating us and our Allies and conquering the world.

TRUE, WE KNOW a great deal already, but from what little I have seen of the evidence, there will be revelations at Nuernberg which will shock and overwhelm us all. How many Americans and Canadians have been in their peaceful comfortable homes realize even today the enormity, the bestiality of the Nazi crimes? A mere glance at the indictment drawn up in the Nuernberg trial is a shocking experience. Some facts already have been made public by the respective governments of the lands overrun by the Nazi hordes. But how quickly we have forgotten them.

I had not realized, for example, that many French were killed in death in German concentration camps. The Paris government charges that of 20,000 French political and racial deportees taken by the Germans only 2,000 survived. This does not include the French massacred in their own country. And how many American remembrance that France had its own Lidice. It was a little town called Lidice, where the entire village population was shot or burned alive in a local concentration camp.

ADMITTEDLY THAT the Germans did in the west was nothing new to their acquaintances in the east. Facts and figures given in the indictment on this subject are your breath away. At the notorious concentration camp at Auschwitz it is charged that some 400,000 persons were exterminated and at Nuernberg some 1,500,000. They were only Poles and Russians. The indictment says they included Americans, British, Czechs, Danes, Dutch, French, Greeks, Hungarians, Italians, Norwegians, and Swedes.

Specific details of the manifold ways the Nazis found to kill human beings are listed in the cases of scores of camps and in the indictment. "Murder" was carried out by shooting, hanging, poisoning, starving, freezing, suffocating, kicking, beating, mutilating and torturing of all kinds, including use of hot iron and pulling out of finger nails and performing experiments on human beings.

SUCH HIDEOUS things are not the only crimes charged against the twenty-two Nazis at Nuernberg. The very men who strangled so arrogantly at the Nuernberg trial were in fact, in the indictment, and one Justice Jackson has been especially active in pointing out that the Nazi defendants planned and executed a common conspiracy to wage war against the United States. They were to be held responsible for waging wars of aggression in violation of solemn international agreements.

This, of course, is something new in history, but lack of precedent will not deter the Allied prosecutors from pressing the charge with utmost vigor.

The twenty-two defendants at Nuernberg, the very men who strangled so arrogantly at the Nuernberg trial were in fact, in the indictment, and one Justice Jackson has been especially active in pointing out that the Nazi defendants planned and executed a common conspiracy to wage war against the United States. They were to be held responsible for waging wars of aggression in violation of solemn international agreements.

EVERYONE BLAMES Van Ribbentrop and the traitorous former foreign minister blames the whole lot except himself, claiming that contrary to what the world believes, he always advised the Fuehrer that Germany and France should fight Germany attacked Poland.

He advised, of course, just the contrary. But we now know that Hitler knew perfectly well when he lured his armies into Poland, Sept. 1, 1939, that he was leading Germany into a world war. I thought and reported so at the time, but only last week stumbled across irrefutable evidence.

ABOUT THREE MONTHS before he began the war he convinced a number of his war cabinet, present were Goering, Raeder, Brauchitsch, Keitel, Milch and ten members of the general staff. Hitler, as usual did all the talking and I have seen the record of what he said.

"With Poland," he told his puppets, "we cannot expect a repetition of the Czech affair. There will be war." He told his generals that England and France would come in. "It will not be an easy war. It will be a life and death struggle against Britain and France. Britain is the driving force against Germany." And a few of his generals squirmed slightly that day? One wonders, in discussing how to annihilate England he advised "consideration of right and wrong or of treaties do not enter into this matter." That, of course, and that is one reason for Justice Jackson's insistence on trying the top Nazis for the crime of breaking the peace.

THE NUERNBERG TRIALS concern not only the crime of the outside world to the nature of the German men who ruled Germany during the last decade. It may even open the eyes of the credulous German people. A few brave poets and writers such as Johannes Bacher

Dispensers' Union Signs Agreement

CALGARY, Nov. 17.—(CPI)—Complete and final agreement on all matters in dispute has been reached by all locals of the Alberta Beverage Dispensers' Union and the hotel operators. Alex Young, international representative, said last night. About six weeks ago a province-wide strike was threatened and a two-day strike was actually held in Lethbridge and in Calgary.

The final agreement was signed in Wainwright Thursday, said Mr. Young.

IN THE CASE of the Edmonton hotel operators and the union are making a joint request to the Regional War Labor Board for a wage scale of \$2 for floormen and \$3 for tapmen. The Edmonton Canadian Legion and the union are justly requesting a scale of \$2.50 for floormen, \$4.50 for tapmen, three weeks annual vacation, and three weeks annual sick leave.

In all other districts in the province where the union is organized, the operators have agreed to pay salaries wages the War Labor Board decides on. The union will be the board for the \$2 and \$3 scale.

Conclude Hearing Of Murder Charge

PORTAGE LA PRAIRIE, Man., Nov. 17.—(CPI)—Baldwin Jonsson, 35-year-old farm hand who is facing a charge of murder of Pearl Dell, testified on his own behalf yesterday.

He testified the girl slashed her own throat with a razor, and that her head was injured when the car in which they were riding ran into a ditch and was thrown against the ditch.

The girl's body was found in Jonsson's car, 11 miles north of here Sept. 11. Her throat was slashed from ear to ear and there were head wounds, which the Crown charges were inflicted with a hammer.

JONSSON WAS FOUND in a ditch near the car. His throat and one wrist were slashed. He had apparently been lying there for 45 hours and his condition was critical. However, he made a quick recovery in hospital.

Harvey Spaulding, defence counsel, and W. T. C. Curran, prosecutor, addressed the jury yesterday afternoon. The case was adjourned until 10 a.m. Saturday when Mr. Justice Adamson will deliver his summation.

THE NUERNBERG TRIALS, if they do not degenerate into the usual Pole and Russian trial by the British, may, as a group of German writers said to me the other day, be the first great step in the re-education of the German people.

Can't Broadcast Penitentiary Riots

OTTAWA, Nov. 17.—(CPI)—The federal justice department insisted that the "broadcasting corporation" refrain from including in its broadcasts any references to disturbances in Canadian penitentiaries, Justice Minister St. Laurent told the Commons yesterday.

When references were made to disturbances in Canadian penitentiaries, the broadcasting corporation was very reluctant to eliminate the reports of these incidents in its broadcasts, and I confess that I was reluctant to have to insist that it be done, but the alternative would have been for us to eliminate the reports from the penitentiaries," said Mr. St. Laurent.

That kind of news created uneasiness with which we were not prepared to cope."

Wife Survives Murderous Attack
LOS ANGELES, Nov. 17.—(AP)—John Thomas Hume, 32, told a coroner's jury yesterday that he broke into the home of his estranged wife, Florence, 39, last Monday night and then testified calmly how he beat and strangled her and slashed her throat and abdomen with a butcher knife.

"But she would not die," Hume testified as he told how he knocked his wife down with a wine bottle, knocked her down again, stamped upon her and then beat her with a sausage grinder.

"**THEN I GOT** the butcher knife and ripped her open," he continued.

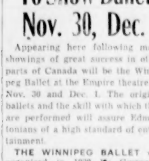

"The jury recommended that Hume be held for trial. A murder charge already has been filed against him."

Probe Upholds Airman's Strike
NEW DELHI, Nov. 17.—(Reuters)—About 700 RAF airmen who "struck" against conditions at their base at Jodhpur, India, have escaped disciplinary action after a personal investigation by Air Marshal Sir Roderick Carr, base commander in southeast Asia.

Complaints about bad food and unnecessary daily full-dress inspections prompted the strike, which followed a broadcast of Britain's demobilization plans by George Basse, minister of labor. While the broadcast was later officially described as over-optimistic, airmen felt they had been misled by their station commander, Group Capt. J. D. Rutherford.

THEY REFUSED to attend an 8 a.m. inspection and sent a protest delegation to Group Capt. Rutherford. Their grievances were justified. It was stated after the Air Marshal Carr's investigation.

Call on Douglas For Explanation Factory Seizure
PRINCE ALBERT, Sask., Nov. 17.—(CPI)—J. E. Mitchell, owner of the Prince Albert box factory before it was seized by the Saskatchewan government Nov. 5, declared yesterday "the government's attempt to give back the plant requires a public explanation from Premier Douglas."

The plant was seized after the company's refusal to sign a collective bargaining agreement with employees. At that time Premier T. C. Douglas said in a statement that J. E. Mitchell is prepared to deal with his employees without any attempt at trickery; he will find the

government ready to discuss the matter with him.

Later Dr. M. C. Schumacher, advisor to the premier, and a lone-luck had thus been left for Mr. Mitchell to resolve his plan.

Accused Germans Now Await Trial
MEDICINE HAT, Alta., Nov. 17.—(CPI)—Under heavy guard, three German prisoners of war formerly held in Medicine Hat internment camp last night were en route to the provincial jail at Lethbridge, where they will be held until their trial before the next session of the Alberta Supreme Court here on a charge of murdering one of their comrades, August Plazek.

The accused, Sgt. Werner Schwaib, 30, Johannes Wittinger, 30, and Adolph Kratz, 24, were committed for trial by Magistrate W. H. Ellis Friday after a preliminary hearing which began Tuesday.

DURING THE HEARING, 28 witnesses, 20 of them German prisoners of war, the others Royal Canadian Mounted Police officers and army personnel, were called to testify.

Plazek was found hanged in the recreation hall of the Medicine Hat camp July 22, 1943, and the three accused were brought before Magistrate Ellis after officers had investigated the circumstances of Plazek's death for nearly two years.

will be held until their trial before the next session of the Alberta Supreme Court here on a charge of murdering one of their comrades, August Plazek.

The accused, Sgt. Werner Schwaib, 30, Johannes Wittinger, 30, and Adolph Kratz, 24, were committed for trial by Magistrate W. H. Ellis Friday after a preliminary hearing which began Tuesday.

DURING THE HEARING, 28 witnesses, 20 of them German prisoners of war, the others Royal Canadian Mounted Police officers and army personnel, were called to testify.

Plazek was found hanged in the recreation hall of the Medicine Hat camp July 22, 1943, and the three accused were brought before Magistrate Ellis after officers had investigated the circumstances of Plazek's death for nearly two years.

Later Dr. M. C. Schumacher, advisor to the premier, and a lone-luck had thus been left for Mr. Mitchell to resolve his plan.

The ROAD AHEAD

by Capt. HARPER PROWSE, M.L.A.

RECENT announcement by the provincial government that veterans who were residents of Alberta at the time of enlistment may apply for agricultural leases on school lands in the province is of great importance to those returned men who hope to earn their living on the land. It will help to solve the problem of veterans from settled districts who wish to obtain farms in their home districts but have not been able to obtain suitable farms under the Veterans' Land Act.

Wait in Safety Zone,
Not in the Street...

The congestion of traffic to a large extent would be eliminated and the safety of pedestrians promoted if the folk waiting for street cars and buses would wait in the safety zones alongside the tracks or on the sidewalk instead of filling the street between tracks and sidewalks, and thus preventing vehicle traffic getting past. Consider the other fellow whether you are walking or driving, and accidents will decrease.

ROAD REPORTS

Roads from 11th Prairie clear through to Fort St. John, including Grande Prairie and Spirit River, are heavy and dirty in spots. It is snowing at Grande Prairie, Dawson Creek and St. Paul. All other roads reported OK.

Lions' Club Hears Talk on Housing

In Edmonton during the last 12 years, 20,734 new houses have been constructed and 10,000 more are being planned.

When asked by W. H. G. Brown, president of the Lions' Club, what the housing situation was in the city, the speaker stated that the housing situation was not as bad as it was in the past.

MR. BROWN SAID that the housing situation was not as bad as it was in the past, and that the housing situation was not as bad as it was in the past.

The Inquiring Reporter THE QUESTION

What did you think of the speaker, newspaper reporter, who said that the housing situation was not as bad as it was in the past?

THE ANSWERS

LEN LORDBO, veteran. It was a step in the right direction, but housewives should do more to cooperate with municipal officials in lightening the burden of traffic in the peak load hours.

HARRY TOBIN, caretaker. There should be really adequate housing for the working class, but it is well made while as the housewife who is able to rise in the morning and see the morning paper and have the satisfaction for the worker who is compelled to use the street cars and buses in the peak load hours.

WILLIAM MULDOON, miner. While the speaker's speech was a relief to the community, it would appear that a further staggering of office hours would be necessary to effect the relief of the peak load hours.

Teams are being formed and all those interested in basketball must give their names to Mr. Demers, our sports director. So far the boys have had one practice and they are looking forward to taking part in interscholastic basketball. There should be any this winter.

Edmonton in the past few years has been the mainstay in parliament and can lead the way again.

Each year, bulletins will be sent directly to all groups from the committee and weekly news items will be sent to all groups. The committee, the city elections and other points of interest.

THE MONTHLY BOARD meetings of the Vancouver Yaxa Yawp work board was held this week at the YMCA and problems relative to city elections and other points of interest were discussed. Mr. Scott, chairman of the board presided.

The nominating committee, under the leadership of Mr. Scott, was charged with the responsibility of replacing Ralph Young in the position of secretary. Mr. Young was elected to the position of secretary.

AN INNOVATION was introduced at Vic Tuesday afternoon with the appearance of October reports. In past years the good (or bad) news has been withheld until January, but it is felt that most reports will keep parents in closer touch with the students' school work.

The music club, headed by Betty Minogue and supervised by Miss Super, is holding weekly meetings so that members may enjoy music.

Reynolds said that one military building in the south was purchased for \$850,000, with about \$100,000 worth of equipment. Reynolds said as long as equipment was "fixed," such as bathroom facilities, it was considered part of the building. He said that things like those furnishings considered movable, when nailed or tacked to the wall or floor, or secured in some way, would also be considered part of the building.

One delegate expressed a frame of mind that Reynolds said was not unusual. "We should be a little more realistic," he said.

One delegate mentioned the possibility of having a "council of states" since there were "stacks" of resolutions which had already gone in.

SIR ARTHUR STONHOUSE, head of Deer, observed that even under the present stip it took a considerable number of members to guide the country, but that the stip was not as well organized as it could be effectively administered with its territory increased and six officers reduced.

"I think the government should be the government to declare themselves on," said H. M. Scott of Stettler. "I understand they are considering the possibility of a referendum to respect to boundaries. Some of us

times the numbers of articles in the stip are not needed, but at other times when they are needed."

J. C. Macdonald of the Canadian Legion, speaking in support of Mr. Scott, said that the stip had been in place for 20 years and two wars whom he knew had made application for the purchase of stip for the purpose of raising money for the war effort. The stip, he said, was unable to raise money.

In reply to a question from the speaker, Mr. Scott said that Mr. Gibson had stated his department was not going to destroy any more surplus war material because they were not going to be used by the Canadian War Assets Corporation.

Shoppers' Service On Street Railway

In an effort to alleviate overcrowding of street cars, trolley and gasoline buses during the peak load hours a special shopper's service is now operating with extra cars and buses on all main lines of the city's transportation system between 2 a.m. and 4 p.m. daily. It was announced Saturday by Thomas Perrier, street railway superintendent.

During the normal operating day this service will provide seating accommodation for 120,000 passengers if fairly distributed, or full capacity for 200,000 patrons, he said. He appealed to patrons of the system to avail themselves of the special service and refrain from riding through the peak load hours. He said that the problem of overcrowding was a difficult one and the help of all was essential in its solution.

He asked also that patrons help speed up the service by having their exact fares ready when entering the street car.

Birds take at least 25 generations to adapt themselves to new situations.

Taxi Service To Be Studied In City Council

A policy governing the granting of approval to firms or individuals to operate taxi service in Edmonton will be formulated at a special meeting of the city council to be held on Tuesday night.

Request for the setting up of a committee to approve applications for permission to operate taxi service in the city has been received by civic authorities from the Alberta Highway Traffic Board, the board undertaking to issue the necessary license to applicants on receipt of the committee's approval.

THE REQUEST from the traffic board was prompted by the fact that a considerable number of applications have been received by the board for license to operate taxis and representations have been made to the board by taxi operators in Edmonton, Calgary and Edmonton that the indiscriminate issue of licenses might create a chaotic condition in the industry, and might very easily lead to an unsatisfactory condition as far as the public service of the industry is concerned.

Under provisions of the Public Service Vehicles Act the highway traffic board is authorized to issue licenses to taxi operators and has been in the practice in the past to issue such licenses to all applicants provided their applications have been approved by some authority nominated by the mayor of the city, as shown in question.

GINKY REFORMS

THE Teenie Weenies were getting tired of supporting Ginky in the Teenie Weenie jail. The lazy mouse liked nothing better than to sleep all day and to have the Teenie Weenies bring him his food. If the little people let him out, he immediately committed some crime so that he had to be arrested again. This meant he had to go back in the pint fruit jar which the Teenie Weenies used for a jail.

"If we put him out of jail he'll cause us a lot of trouble until we arrest him again," said the Policeman. "I don't see why we have to support him in order to keep him from stealing."

The Teenie Weenies discussed putting Ginky out of their jail for several days, but they didn't do anything about it until the mouse was very rude to the Cowboy one morning when that little chap went into the fruit jar with the two grains of corn which was the mouse's daily food ration. Ginky demanded three grains of corn and when the Cowboy refused, the mouse knocked off the Teenie Weenie's hat and tramped on his toes. That decided the General.

He ordered that Ginky be put out of jail at once. The Policeman unlocked the paw-cuffs and told Ginky he'd have to get out of jail. The mouse promptly refused, and it took five of the little men to drag him out. All the little folks gathered around the jail while Ginky pleaded with the General not to put him out.

"I'll be as good as ice cream if you let me stay in jail," Ginky told the General.

"No, Ginky," said the General. "You have been

nasty to the Cowboy and you're a bad mouse. We don't want any bad mice in our jail."

"If you put me out I'll steal and rob and break all the windows in the shoe house," Ginky screamed in rage.

"If you commit any crime around here you can never get back in our jail," the General told him. "However, if you don't get into any trouble for a long, long time we may put you back in jail once in a while as a reward for your good behavior."

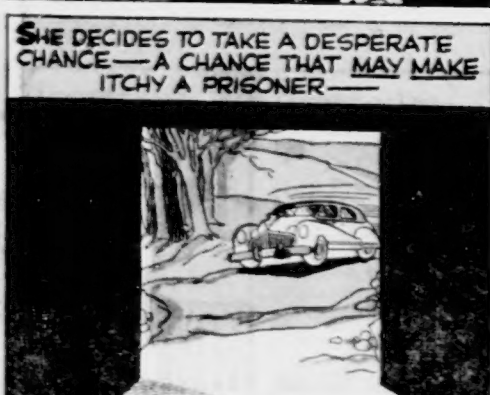

"I'll go and throw myself into a mouse trap if you don't put me back in jail," sobbed Ginky.

"That would probably be a very good thing to do," smiled the General, who knew very well the mouse had no intention of doing any such dreadful thing.

After much weeping Ginky finally went away and for some time now he has been a very good mouse, for he is most anxious to get back into the Teenie Weenie jail.
